Message

Message from The President Bangladesh Electric Mobility Association (BEMA) (Proposed)

I congratulate Savor International Limited for successfully organizing the three-day international exhibition, "Bangladesh Electric Vehicle & Mobility Exhibition (BEVMX 2024)", taking place from November 7 to 9 at the International Convention City Bashundhara (ICCB) in Dhaka, Bangladesh.

The EV industry is seen as a key driver of future economic growth. The growth of the EV sector in Bangladesh can attract foreign investment in manufacturing, technology transfer, and infrastructure development. The country's growing need for sustainable urban transport solutions makes it a promising market for EV development in the coming years. If successful, Bangladesh could serve as a model for other developing countries looking to transition to cleaner, more efficient transportation systems.

The Bangladesh government's policy is actively encouraging and attracting foreign investments. Bangladesh has a well-defined policy for attracting Foreign Direct Investment (FDI), ensuring that all benefits available to national entrepreneurs are equally accessible to foreign investors. Bangladesh is focused on securing foreign investment alongside national private-sector investments. Diversifying exports and expanding the export basket are integral parts of the country's long-term industrial and economic policy.

I believe this exhibition is creating an excellent platform for B2B interactions between local and international counterparts, which is vital for helping our industry grow, compete globally, and strengthen our trading capabilities. The exhibition provides a space for exchanging scientific ideas on the latest developments and technologies in the electric vehicle sector.

The "BEVMX 2024" exhibition serves as an excellent platform for demonstrating our competitive edge and fostering meaningful business partnerships. Additionally, continuous engagement and collaboration with stakeholders are pivotal in advancing Bangladesh's efforts in business development, investment, trade, and compliance with international standards.

Message

Message from The President

Bangladesh Automobiles Assemblers and Manufacturers Association (BAAMA).

I am pleased to congratulate Savor International Limited for the successful organization of the Bangladesh Electric Vehicle & Mobility Exhibition (BEVMX 2024), which will be held from November 7 to 9 at the International Convention City Bashundhara (ICCB) in Dhaka.

The electric vehicle (EV) sector is like a fresh stream of water flowing through a once-static landscape. It brings new opportunities for economic growth, environmental sustainability, and technological progress. In Bangladesh, the rise of the EV industry is beginning to act as a key ingredient in a recipe for long-term prosperity. This shift toward electric vehicles will not only open doors to foreign investment in manufacturing and infrastructure but also set the stage for cleaner, more efficient transport systems that could inspire other nations to follow suit.

The BEVMX 2024 exhibition is an invaluable opportunity for local and international players in the EV market to come together like pieces of a puzzle, aligning to create a clear picture of the industry's potential. As the President of BAAMA, I see this exhibition as a bridge that connects the vision of the future with the realities of today. It provides an excellent platform for meaningful B2B interactions, where ideas can flow freely and partnerships can be formed that will benefit the entire industry. These collaborations will strengthen our competitive edge, expand our market reach, and accelerate the growth of the EV sector.

This exhibition is more than just a showcase of products; it is a Launchpad, propelling the industry forward. It's like a race track where companies from different parts of the world come together to see who has the fastest, most innovative ideas. The technical sessions and expert-led discussions at BEVMX 2024 will help all of us better understand the hurdles we face and how we can leap over them, ensuring that Bangladesh is not only part of the global electric vehicle movement but also a key player in driving the change.

As we move forward, I believe that the ongoing cooperation and partnerships formed during BEVMX 2024 will be the building blocks that help Bangladesh emerge as a leading hub for EV manufacturing and development in the region. Just as the wheels of an EV work in harmony to propel the vehicle forward, our collective efforts will move the industry to new heights, creating a future of sustainable mobility for the country.

I am excited to witness the lasting impact of this exhibition on the growth of the EV industry and its role in shaping the future of transportation in Bangladesh.

Hafizur Rahman Khan

President

Bangladesh Automobiles Assemblers and Manufacturers Association (BAAMA)

Mohammad Ali Deen
General Secretary,
Bangladesh Automobiles Assemblers
and Manufacturers Association (BAAMA).

Message from The General Secretary Bangladesh Automobiles Assemblers and Manufacturers Association (BAAMA).

I would like to extend my warm congratulations to Savor International Limited for successfully organizing the Bangladesh Electric Vehicle & Mobility Exhibition (BEVMX 2024), taking place from November 7 to 9 at the International Convention City Bashundhara (ICCB) in Dhaka.

The electric vehicle (EV) industry is quickly becoming one of the most important drivers of sustainable economic development, and Bangladesh has tremendous potential to lead in this sector. As demand for clean, efficient, and environmentally friendly transportation solutions continues to grow, the expansion of the EV market offers a unique opportunity for Bangladesh to strengthen its position in the global automotive industry.

As the General Secretary of BAAMA, I firmly believe that BEVMX 2024 provides an excellent platform for promoting collaboration between local manufacturers, international investors, and technology partners. The exhibition offers an invaluable opportunity for the industry to engage in meaningful discussions, share insights, and explore the latest innovations in electric vehicle technology.

The Bangladesh Automobiles Assemblers and Manufacturers Association (BAAMA) is fully committed to supporting the growth of the EV sector in Bangladesh. We view this exhibition as an ideal opportunity to showcase the capabilities and achievements of our local automotive industry, as well as to strengthen relationships with global partners. By working together, we can advance the development of electric mobility in Bangladesh, ensuring that the country is at the forefront of this global transition.

I am confident that BEVMX 2024 will serve as a key milestone in the growth of the electric vehicle sector, driving investment, collaboration, and technological advancement in line with international standards. We look forward to the opportunities that will arise from this important event and the continued growth of Bangladesh's automotive and mobility sectors.

Mohammad Ali Deen
General Secretary,
Bangladesh Automobiles Assemblers and Manufacturers Association (BAAMA).

Md. Amirul Islam
Chairman
Savor International Limited

Messege

Dear Esteemed Exhibitors and Respected Guests,

I am very pleased to be attending the three-day international exhibition, "Bangladesh Electric Vehicle & Mobility Exhibition (BEVMX 2024)", at the International Convention City Bashundhara (ICCB) in Dhaka, Bangladesh.

(BEVMX 2024) is an exciting event that showcases the country's growing focus on electric vehicles (EVs) and sustainable mobility. The exhibition features the latest innovations in EV technology, products from local and international manufacturers, and discussions on how electric mobility transforms transportation in Bangladesh.

SAVOR is creating a unique networking platform for both Bangladeshi and international participants to showcase their smart and innovative products related to the industry, fostering mutual benefits through the sharing of technologies and ideas. It provides an excellent opportunity to assess client opinions, determine market potential, conduct research, and evaluate competition. Participants can also develop commercial structures by identifying new agents and distributors, as well as initiate joint ventures.

I truly believe this exhibition is actively contributing to the economy of Bangladesh by bringing together exhibitors from different parts of the world and creating a sustainable platform for local and international entrepreneurs to showcase their products and materials. I strongly believe that the exhibition will make a good start of the Electric Vehicle and mobility industry and will be able to create a suitable B2B interaction both for local and international renowned counterpart that will help industry to grow more and to compete globally.

I extend my best wishes for the success of this exhibition.

Md. Amirul Islam

Savor International Limited

Messege

Dear Esteemed Participants and Admirable Guests,

I am very much grateful and privileged to attend the “Bangladesh Electric Vehicle & Mobility Exhibition” (BEVMX 2024) at the International Convention City Bashundhara (ICCB) in Dhaka, Bangladesh. This prestigious event serves as a crucial platform to witness the future of mobility, with a particular focus on the exciting innovations within the electric vehicle (EV) sector.

BEVMX 2024 is a true and splendid showcase of the latest innovations in EV technologies, including electric vehicles, charging solutions, energy storage, and renewable energy integration. Though still in its early stages, the EV industry in Bangladesh holds immense promise for future growth. With government support, the expansion of charging infrastructure, and increasing consumer awareness, Bangladesh is on the verge of embracing sustainable mobility, contributing to a greener future.

As part of the event, various technical sessions are being led by industry experts, respected academicians, and administrators with commendable and timely visions for the industries. We are also bringing together international business executives, utility engineers, and funding advisors. This is stimulating future partnerships, fostering innovative solutions, driving economic expansion, and creating sales and investment opportunities for all participants.

Through these exhibitions, Savor International Limited consistently provides opportunities for both national and international companies to expand their business. We are dedicated to creating a platform where businesses can connect, showcase their innovations, and explore new markets. By facilitating these interactions, we help foster meaningful partnerships, drive economic growth, and open up new avenues for investment and collaboration in various industries.

I would like to express my sincere gratitude to all the partners, sponsors, and exhibitors for their extensive cooperation towards the project and look forward to exploring it more elaborately in coming endeavors.
