Rashed Al Mahmud Titumir
Adviser to Hon'ble Prime Minister of Bangladesh (Minister)
Ministry of Finance and Ministry of Planning
Government of the People's Republic of Bangladesh

Message

I am pleased to convey my warm greetings on the occasion of the 11th Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from 14-16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka.

The advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies is closely linked with sustainable industrial development, efficient infrastructure management, and long-term economic growth. As Bangladesh continues to move forward with its development agenda, the importance of modern, energy-efficient, and environmentally sustainable technologies is becoming increasingly significant across both public and private sectors.

The HVAC-R and cold chain industries play a vital role in supporting sectors such as manufacturing, healthcare, agriculture, food processing, logistics, and commercial infrastructure. Efficient cooling and refrigeration systems are essential for maintaining operational reliability, reducing energy consumption, preserving perishable products, and strengthening supply chain efficiency.

The 11th Safe HVAC-R & Cold Chain Expo 2026 provides an important international platform for industry stakeholders, policymakers, engineers, manufacturers, and technology providers to exchange knowledge, showcase innovations, and explore investment and collaboration opportunities. Such initiatives contribute significantly to promoting technological advancement and strengthening Bangladesh's industrial competitiveness in the global market.

I am pleased to know that the exhibition is supported by leading industry bodies including BRAMA, BCSA, ASHRAE Bangladesh Chapter, CEAB, KOTRA & JCI Bangladesh, reflecting strong industry collaboration and international participation.

I commend the organizers, Savor International Limited, for their continued efforts in arranging this important international exhibition and for creating a platform that promotes innovation, sustainable development, and business cooperation.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 every success.

Rashed Al Mahmud Titumir

Habibur Rashid, M.P.
Honorable State Minister
Ministry of Railways
Government of the People's Republic of Bangladesh

Message

It is my great pleasure to extend my sincere greetings on the occasion of the 11th Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from 14-16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka.

The advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies plays a crucial role in supporting modern infrastructure, transportation systems, and efficient logistics networks. As Bangladesh continues to strengthen its railway infrastructure and expand its transportation capacity, the importance of reliable climate control and temperature-controlled logistics solutions has become increasingly significant.

Modern railway systems require efficient HVAC-R technologies to ensure passenger comfort, operational safety, and system reliability across stations, terminals, and rail coaches. At the same time, the development of cold chain infrastructure is essential for the safe transportation of perishable goods, pharmaceuticals, and other temperature-sensitive products across the country. Integrating advanced refrigeration and cold chain systems within transportation networks can significantly enhance supply chain efficiency and reduce losses.

The Safe HVAC-R & Cold Chain Expo 2026 provides an important platform for industry stakeholders, engineers, policymakers, and technology providers to come together and explore innovative solutions that support the development of modern infrastructure and logistics systems. Such initiatives promote knowledge exchange, encourage technological adoption, and strengthen collaboration between different sectors.

I sincerely appreciate the organizers for their outstanding initiative in bringing together industry stakeholders on such an important international platform and wish the exhibition continued success.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 every success.

Habibur Rashid, M.P.

Md. Abdul Jalil
Director General
Department of Mass Communication
Ministry of Information and Broadcasting

Message

It gives me immense pleasure to acknowledge the 11th edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to take place from May 14 to 16, 2026, at the International Convention City Bashundhara (ICCB), Dhaka.

This globally recognized event serves as a significant platform for showcasing cutting-edge innovations in HVAC-R systems, cold storage and cold chain logistics, energy-efficient cooling technologies, and smart automation solutions—all under one roof.

In today's rapidly evolving world, information dissemination, communication, and awareness initiatives play a pivotal role in driving sustainable industrial development.

Events like this not only display the latest advancements in heating, ventilation, air-conditioning, refrigeration, and cold chain technologies, but also foster awareness around energy efficiency, environmental sustainability, and modern infrastructure solutions.

I greatly appreciate the organizers, the Savor International Limited, for their steadfast commitment to creating a world-class platform for collaboration and knowledge-sharing among industry stakeholders. The expo offers an excellent opportunity to engage, exchange ideas, and implement effective industry best practices. Through comprehensive media coverage and stakeholder collaboration, the event aspires to have a broader reach, enabling informed decision-making and raising public awareness.

On this momentous occasion, I extend my heartfelt congratulations to the organizers and convey my best wishes for the grand success of the Safe HVAC-R & Cold Chain Expo 2026.

Md. Abdul Jalil

Abu Mkhles Alamgir Hossain
Director (Policy and Planning)
Export Promotion Bureau (EPB)
Ministry of Commerce

Message

I am pleased to convey my warm greetings on the occasion of the 11th Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from 14-16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka.

The development of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies plays a significant role in strengthening Bangladesh's export competitiveness, particularly in sectors dealing with temperature-sensitive products such as agro-products, processed foods, pharmaceuticals, fisheries, and other perishable commodities. A modern and efficient cold chain system is essential for preserving product quality, reducing post-harvest losses, complying with international standards, and ensuring greater access to global markets.

The Export Promotion Bureau (EPB) remains committed to supporting initiatives that enhance the country's export capacity and encourage the adoption of advanced technologies across export-oriented industries. In this regard, the Safe HVAC-R & Cold Chain Expo 2026 serves as an important platform for promoting technological advancement, facilitating business networking, and fostering collaboration between local and international stakeholders.

I believe this exhibition will create valuable opportunities for exporters, manufacturers, engineers, investors, and industry professionals to explore innovative HVAC-R and cold chain solutions that can improve operational efficiency, strengthen supply chain management, and add greater value to Bangladeshi products in the international market.

By bringing together leading companies, experts, and industry representatives from home and abroad, the expo is expected to contribute to the sustainable development of Bangladesh's industrial and export sectors and support the country's continued economic growth.

I appreciate the organizers for taking the initiative to arrange this important international exhibition and wish the 11th Safe HVAC-R & Cold Chain Expo 2026 every success.

Abu Mkhles Alamgir Hossain

Bilal Belyurt
Commercial Counsellor
Embassy of the Republic of Türkiye in Dhaka

Message

I am pleased to convey my warm greetings on the occasion of the 11th Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from 14-16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka.

The advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies plays a vital role in supporting modern infrastructure, industrial efficiency, and sustainable development. These systems are essential for ensuring energy efficiency, environmental sustainability, and operational reliability across a wide range of sectors including construction, manufacturing, healthcare, food processing, and logistics.

Türkiye and Bangladesh share a strong and steadily growing partnership in trade, investment, and industrial cooperation. There is considerable potential to further strengthen this relationship, particularly in technology-driven sectors such as HVAC-R and cold chain, where innovation and efficiency are key priorities.

Platforms like the Safe HVAC-R & Cold Chain Expo 2026 provide an excellent opportunity to bring together international technology providers, manufacturers, engineers, and industry stakeholders. Such exhibitions facilitate knowledge exchange, promote advanced technologies, and create new avenues for business collaboration and investment.

I believe that continued engagement between our countries through initiatives like this will contribute to strengthening bilateral trade relations and fostering sustainable industrial growth.

I commend the organizers, Savor International Limited, for their dedicated efforts in organizing this important international exhibition and for creating a platform that promotes innovation, collaboration, and technological advancement.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 every success.

Bilal Belyurt

Mehmet Hakkı ŞANAL
Chairman
Turkish HVAC&R Exporters Association (ISIB)

Message

It is a great honor to welcome all participants, exhibitors, and visitors to 11th Safe HVAC-R & Cold Chain 2026 in the vibrant city of Dhaka, Bangladesh. On behalf of the Turkish HVAC&R Exporters Association (ISIB), I extend my warmest greetings and best wishes for a successful event.

This exhibition stands out as a premier platform where innovation meets collaboration. It brings together industry leaders, pioneers, and experts from around the world to share knowledge, present breakthrough technologies, and explore solutions that prioritize energy efficiency, sustainability, and safety in HVAC&R and cold chain systems.

Turkey has built a strong reputation as a global hub for HVAC&R manufacturing, offering advanced products and engineering solutions of the highest quality. Through ISIB, we are dedicated to connecting Turkish manufacturers with international partners, fostering growth, and driving excellence in every collaboration.

We are especially excited to be part of this event in Bangladesh—a country experiencing rapid growth and increasing demand for smart, sustainable climate solutions. The 11th Safe HVAC-R & Cold Chain 2026 offers a unique opportunity to strengthen trade ties, exchange expertise, and explore new avenues for cooperation between our two nations.

I sincerely thank the organizers for their dedication in bringing together such a diverse and influential group of participants. I wish everyone an inspiring, productive, and successful exhibition.

Mehmet Hakkı ŞANAL

Promotion Agency

Message

It is a great pleasure to extend my warm greetings to all participants, exhibitors, partners, and visitors of Safe HVAC-R & Cold Chain 2026, organized by Savor International Limited.

Safe HVAC-R & Cold Chain 2026 is an important international platform that brings together key sectors including HVAC-R, refrigeration, cold storage, cold chain logistics, ventilation, air conditioning, and energy-efficient cooling solutions.

By connecting industry professionals, manufacturers, suppliers, and global expertise, this event creates valuable opportunities for innovation, technology exchange, and long-term business cooperation.

KOTRA highly values the growing economic relationship between Korea and Bangladesh. We believe that stronger collaboration in the HVAC-R and cold chain sectors will contribute meaningfully to sustainable industrial growth and shared prosperity.

I sincerely appreciate Savor International Limited for organizing this timely and meaningful exhibition and wish Safe HVAC-R & Cold Chain 2026 every success. Thank you.

Sunghoon Lee

Md. Abdur Rahim Khan
Administrator
The Federation of Bangladesh Chambers of Commerce and Industry (FBCCI)

Message

I am very pleased to congratulate the launching of the 11th Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from May 14 to 16, 2026, at the International Convention City Bashundhara (ICCB), Dhaka.

As Bangladesh advances toward an industrialized economy, the role of the private sector is increasingly significant. Platforms like this exhibition act as a vital bridge between stakeholders, enabling collaboration, technology adoption, and investment opportunities that support sustainable industrial growth.

The exhibition highlights key areas such as heating, ventilation, air-conditioning, refrigeration, and cold chain technologies, which are essential for modern infrastructure, manufacturing, and efficient supply chain management. These sectors are aligned with national development priorities and play a crucial role in supporting industries including food processing, pharmaceuticals, agriculture, and logistics.

To connect local and international businesses, the Safe HVAC-R & Cold Chain Expo 2026 offers a platform to exchange ideas, showcase innovations, and explore strategic partnerships. This engagement strengthens supply chains, encourages technology transfer, and enhances Bangladesh's competitiveness in the global market.

I commend Savor International Limited for their continued efforts in bringing stakeholders together and wish the 11th Safe HVAC-R & Cold Chain Expo 2026 every success.

Md. Abdur Rahim Khan

Mostofa Azad Chowdhury Babu
President
Bangladesh Cold Storage Association (BCSA)

Message

It is my great pleasure to extend my sincere greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to take place from 14–16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka. This important international exhibition provides a dynamic platform dedicated to the advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies in Bangladesh.

The cold storage and refrigeration sector plays a critical role in strengthening Bangladesh's agricultural supply chain and ensuring food security across the country. Efficient cold storage facilities and temperature-controlled logistics systems are essential for preserving agricultural produce, fisheries, meat, dairy products, and other perishable goods. In a country where agriculture remains a major contributor to the national economy, the development of a reliable cold chain system is vital for reducing post-harvest losses and improving the overall efficiency of the food supply network.

Bangladesh Cold Storage Association (BCSA) remains committed to supporting the development and modernization of cold storage facilities across the country. The association continuously works with industry stakeholders, policymakers, and technology providers to encourage the adoption of advanced refrigeration technologies and efficient storage solutions that align with international standards.

The Safe HVAC-R & Cold Chain Expo 2026 will provide an excellent opportunity for stakeholders involved in refrigeration, cold storage, logistics, and food processing to explore innovative solutions and modern technologies. By bringing together manufacturers, engineers, consultants, and industry professionals from both local and international markets, the exhibition will encourage knowledge exchange and strengthen collaboration within the sectors.

Events like this are extremely important for promoting technological advancement and supporting the continued growth of Bangladesh's cold chain ecosystem. The exhibition will not only highlight the latest developments in HVAC-R technologies but also create opportunities for business networking and industry co-operation.

I congratulate the organizers for their dedication in arranging such an important international exhibition and for providing a platform that promotes innovation and collaboration.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Mostofa Azad Chowdhury Babu

Md. Khorshed Alam
President

Bangladesh China Chamber of Commerce & Industry (BCCCI)

Message

It is my pleasure to extend my sincere greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from 14–16 May 2026 at ICCB, Dhaka.

The HVAC-R industry plays an essential role in supporting modern infrastructure, industrial development, and efficient temperature-controlled supply chains. As Bangladesh continues to strengthen its manufacturing and industrial sectors, the demand for reliable refrigeration technologies and advanced climate control systems continues to grow.

International collaboration and technology exchange are crucial for the advancement of modern industries. Bangladesh China Chamber of Commerce and Industry (BCCCI) remains committed to promoting bilateral trade, investment, and technological cooperation between Bangladesh and China.

China has become one of the leading partners in supporting Bangladesh's industrial development through technology transfer, manufacturing expertise, and investment. Platforms such as the Safe HVAC-R & Cold Chain Expo 2026 provide an excellent opportunity for companies from both countries to showcase their latest technologies and explore new areas of cooperation.

The exhibition will bring together global manufacturers, technology providers, engineers, and business leaders who are actively engaged in the development of modern HVAC-R systems and refrigeration technologies. Such initiatives encourage knowledge exchange and strengthen international partnerships that contribute to sustainable industrial growth.

I commend the organizers for arranging this important international exhibition and for creating a platform that encourages business collaboration and technology exchange.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Md. Khorshed Alam

Md. Anwar Shahid
President
Bangladesh Malaysia Chamber of Commerce & Industry (BMCCI)

Message

It is my pleasure to extend my warm greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to take place from 14–16 May 2026 at ICCB, Dhaka.

The HVAC-R industry plays a significant role in supporting modern infrastructure, sustainable industrial development, and temperature-controlled supply chains. Efficient heating, ventilation, air-conditioning, and refrigeration systems are essential for maintaining operational efficiency across commercial buildings, manufacturing facilities, healthcare institutions, and food storage systems.

Bangladesh Malaysia Chamber of Commerce and Industry (BMCCI) remain committed to strengthening trade relations and business collaboration between Bangladesh and Malaysia. Both countries share strong economic ties and have significant potential for cooperation in sectors such as engineering technologies, manufacturing, and industrial solutions.

The Safe HVAC-R & Cold Chain Expo 2026 provides a valuable platform for industry stakeholders from both countries to explore opportunities for technological collaboration and business partnerships. By bringing together international manufacturers, technology providers, engineers, and industry leaders, the exhibition will encourage knowledge exchange and promote the adoption of modern HVAC-R technologies.

Such initiatives play an important role in strengthening global industry connections while supporting the continued growth of Bangladesh's industrial sector.

I congratulate the organizers and wish the 11th Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Md. Anwar Shahid

Anwarul Islam
President
Bangladesh Refrigeration and Air Conditioning Merchants Association (BRAMA)

Message

It is my great pleasure to extend warm greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to take place from 14–16 May 2026 at ICCB, Dhaka.

The HVAC-R industry plays a vital role in supporting modern infrastructure, industrial development, and temperature-controlled supply chains. Reliable refrigeration and climate control systems are essential for ensuring operational efficiency across commercial buildings, manufacturing facilities, food storage systems, and pharmaceutical industries.

Bangladesh Refrigeration and Air Conditioning Merchants Association (BRAMA) remains committed to representing businesses engaged in refrigeration and air-conditioning equipment, technologies, and services throughout the country. The association continuously works to promote industry collaboration, technical knowledge sharing, and the adoption of modern HVAC-R technologies that align with international standards.

The Safe HVAC-R & Cold Chain Expo 2026 will provide a valuable opportunity for manufacturers, suppliers, engineers, and industry professionals to showcase innovative products, exchange technical expertise, and explore new business partnerships.

By bringing together global technology providers and local industry stakeholders, the exhibition will help accelerate the development of Bangladesh's HVAC-R and refrigeration sector.

I commend the organizers and wish the Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Message

It gives me great pleasure to extend my greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, which will be held from 14–16 May 2026 in Dhaka.

The HVAC-R sector plays a critical role in supporting industrial development, infrastructure modernization, and efficient supply chain management. Reliable heating, ventilation, air-conditioning, and refrigeration technologies are essential for maintaining operational efficiency across commercial buildings, industrial facilities, and temperature-controlled logistics networks.

India-Bangladesh Chamber of Commerce and Industry (IBCCI) continues to promote bilateral trade, investment, and business collaboration between India and Bangladesh. The strong economic relationship between the two neighboring countries has created significant opportunities for cooperation across multiple sectors, including manufacturing, engineering, and industrial technologies.

Platforms such as the Safe HVAC-R & Cold Chain Expo 2026 play a vital role in strengthening these economic partnerships by providing opportunities for industry stakeholders to explore new technologies and develop collaborative business initiatives.

The exhibition will bring together manufacturers, engineers, consultants, and business leaders from across the region to showcase innovative solutions and explore emerging opportunities in the HVAC-R and refrigeration industry.

I commend the organizers for their efforts in arranging this important international exhibition and wish the Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Message

It gives me great pleasure to extend my sincere greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to be held from 14–16 May 2026 at ICCB, Dhaka.

The HVAC-R industry plays a fundamental role in ensuring safe, comfortable, and energy-efficient indoor environments across residential, commercial, and industrial facilities. Modern HVAC-R technologies are essential for improving energy performance, reducing environmental impact, and supporting sustainable infrastructure development.

ASHRAE Bangladesh Chapter is committed to promoting global HVAC-R standards, technical excellence, and professional development within the industry. Through research, education, and industry collaboration, ASHRAE continues to support the advancement of innovative technologies that improve energy efficiency and environmental sustainability.

The Safe HVAC-R & Cold Chain Expo 2026 will provide an excellent platform for engineers, researchers, consultants, and industry professionals to exchange technical knowledge and explore the latest developments in HVAC-R technologies.

Such initiatives help strengthen collaboration between academia, industry, and technology providers while encouraging the adoption of modern engineering solutions.

I commend the organizers for arranging this important international exhibition and wish the Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Message

It gives me great pleasure to extend my warm greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, which will be held from 14–16 May 2026 in Dhaka. This prestigious international exhibition represents an important initiative dedicated to the advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies in Bangladesh.

The HVAC-R industry plays a vital role in supporting modern infrastructure, sustainable urban development, and efficient industrial operations. As Bangladesh continues to expand its industrial and commercial sectors, the need for reliable climate control systems and efficient refrigeration technologies has become increasingly important.

Innovation and technological advancement remain key drivers for the growth of modern industries. Platforms such as the Safe HVAC-R & Cold Chain Expo 2026 create valuable opportunities for industry professionals, innovators, entrepreneurs, and young leaders to explore emerging technologies and build meaningful partnerships.

JCI Bangladesh is committed to empowering young professionals and entrepreneurs to contribute to economic development, technological innovation, and sustainable business practices. Through leadership development, networking, and collaborative initiatives, JCI continues to support the growth of future industry leaders who will help shape the country's economic and technological progress.

The Safe HVAC-R & Cold Chain Expo 2026 will bring together manufacturers, engineers, consultants, researchers, and business leaders from across the globe. Such platforms encourage knowledge exchange, strengthen professional networks, and support the adoption of innovative technologies that improve industrial productivity and sustainability.

By fostering collaboration between industry stakeholders and emerging leaders, the exhibition will contribute significantly to the development of Bangladesh's HVAC-R sector and the broader industrial ecosystem.

I commend the organizers for their efforts in arranging this important international exhibition and providing a platform that promotes innovation, collaboration, and industry development.

I wish the Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Message

It is my pleasure to extend my sincere greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to take place from 14–16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka. This important international exhibition serves as a dynamic platform dedicated to the advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies in Bangladesh.

As Bangladesh continues to experience rapid urbanization and industrial expansion, the demand for modern HVAC-R technologies has increased significantly. Efficient climate control systems play a crucial role in ensuring comfortable indoor environments, maintaining operational efficiency, and supporting sustainable infrastructure development across residential, commercial, and industrial sectors.

At Utility Professionals, we strongly believe that innovation and professional expertise are essential for the development of reliable HVAC-R systems that meet global standards while addressing the evolving needs of Bangladesh's growing infrastructure. The adoption of energy-efficient technologies and environmentally responsible solutions is becoming increasingly important as industries seek to reduce operational costs while improving environmental sustainability.

The Safe HVAC-R & Cold Chain Expo 2026 will provide an excellent opportunity for engineers, consultants, manufacturers, and technology providers to showcase their latest innovations and explore new business opportunities. By bringing together industry leaders and professionals from across the globe, the exhibition will encourage knowledge exchange and strengthen industry collaboration.

I commend the organizers for their dedicated efforts in arranging this important international exhibition and providing a platform that promotes innovation, cooperation, and technological advancement.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Message

It is a pleasure to extend my warm greetings on the occasion of the 11th Edition of the Safe HVAC-R & Cold Chain Expo 2026, scheduled to take place from 14–16 May 2026 at ICCB, Dhaka.

The HVAC-R industry plays a crucial role in supporting modern infrastructure and sustainable building development. Efficient heating, ventilation, air-conditioning, and refrigeration technologies are essential for ensuring comfortable indoor environments while improving energy efficiency and environmental sustainability.

At Green Building Consultant, we strongly advocate the integration of sustainable HVAC-R technologies and environmentally responsible cooling solutions in modern construction projects. As Bangladesh continues to move toward greener infrastructure and sustainable urban development, the adoption of energy-efficient HVAC-R systems has become increasingly important.

The Safe HVAC-R & Cold Chain Expo 2026 provides a valuable opportunity for engineers, architects, consultants, and technology providers to explore innovative solutions that support sustainable infrastructure development. By bringing together industry experts and global technology providers, the exhibition will encourage the exchange of ideas and promote environmentally responsible engineering practices.

Events like this play an important role in raising awareness about sustainable technologies and encouraging the adoption of energy-efficient HVAC-R systems across the construction and industrial sectors.

I congratulate the organizers for arranging such an important platform and wish the 11th Safe HVAC-R & Cold Chain Expo 2026 (14–16 May 2026) every success.

Message

It gives me immense pleasure to welcome you to the 11th Safe HVAC-R & Cold Chain Expo 2026, being held from 14-16 May 2026 at the International Convention City Bashundhara (ICCB), Dhaka.

Over the years, the HVAC-R and cold chain industry has become one of the most important sectors supporting modern infrastructure, industrial development, healthcare, food processing, agriculture, and logistics. The advancement of heating, ventilation, air-conditioning, refrigeration, and cold chain technologies is essential for ensuring energy efficiency, operational reliability, environmental sustainability, and economic growth.

With the continuous development of Bangladesh's industrial and commercial sectors, the demand for advanced HVAC-R systems and modern cold chain solutions is increasing rapidly. As an organizer, our vision is to create a strong international platform where industry leaders, manufacturers, engineers, consultants, policymakers, and technology providers can come together to exchange knowledge, showcase innovations, and explore new business opportunities.

This year, the 11th Safe HVAC-R & Cold Chain Expo 2026 proudly features participation from 9 countries, with strong representation from local and international companies showcasing cutting-edge technologies and solutions. We are also honored to receive support from leading industry bodies including BRAMA, BCSA, ASHRAE Bangladesh Chapter, IBCCI, CEAB, KOTRA, and JCI Bangladesh as our valued partners and collaborators.

The exhibition will highlight the latest innovations in HVAC-R systems, cold storage technologies, industrial refrigeration, energy-efficient cooling solutions, smart automation systems, and sustainable technologies. Alongside the exhibition, a series of technical seminars and networking sessions will create opportunities for meaningful discussion, collaboration, and professional development.

We firmly believe that platforms like this play a significant role in promoting industrial modernization, technology transfer, and sustainable economic growth in Bangladesh.

On behalf of Savor International Limited, I would like to express my sincere gratitude to all exhibitors, partners, sponsors, industry stakeholders, and visitors for their continued support and participation.

I wish the 11th Safe HVAC-R & Cold Chain Expo 2026 every success.

Supreme Air-Conditioning Co. distinguishes itself through a dedicated team of research and development engineers focused on pioneering energy-efficient, high-performance cooling technologies. Complementing this innovation, an expert in-house design team provides bespoke HVAC engineering tailored to specific project requirements.</p> <p>At the core of the company's success is a steadfast commitment to customer satisfaction. A highly skilled after-sales service team ensures seamless maintenance and support, reinforcing the brand's reputation for excellence. By blending cutting-edge manufacturing with dependable technical support, Supreme Air-Conditioning Co. continues to set the benchmark for quality and efficiency in the Bangladeshi market.</p>		

Company Name : Testo India Pvt Ltd

Full Address :	Plot No.23, Sind Society, Baner Road, Aundh, Pune, 411007		
E-mail :	info@testo.in		
Principle Company :	Export refrigerant gas and spare part	Website :	www.testo.com
Nature of Business :	Testing & Measurement instrumentation		
Display product in Expo	<ul style="list-style-type: none"> • Portable Measuring Instruments & Systems for: Temperature, Humidity, Dew point, Pressure, Air velocity, Indoor air quality, RPM, Sound, Light, Compressed Air Flow, Electrical Measurement • Data Loggers and Wireless Data Monitoring System • Portable Flue Gas Analyzers for Combustion and Emission Analysis • Thermal Imagers for Predictive and Preventive Maintenance 		
Establishment Year	2006		
Short Brief of Company	<p>Testo is a world leader in design, development and manufacturing of electronic portable test and measuring instruments.</p> <p>Established in 2006, Testo India Pvt. Ltd., a 100% subsidiary of Testo SE & Co KGaA has shown phenomenal growth, with its H.O. in Pune, & a PAN India sales network.</p> <p>At Testo, you will find all of the measuring technology you need to efficiently adjust heating, air conditioning, ventilation and refrigeration systems as well as electrical installations. Testo is a market leader in measuring instruments & technology specially for HVACR and facility management industry, providing instruments such as Digital refrigeration manifolds, Air capture hood, IAQ & IEQ measuring instruments, Ambient climate monitoring data loggers etc.</p> <p>Located at our Head Office in Pune, Testo India has a high quality NABL accredited service & calibration lab. Instruments of any brand/make can be calibrated and serviced locally maintaining international standards. All calibrations are traceable to highly accurate international standards</p>
